

TSi INTEGRATED

Depth and Definition Delivered

Engineered to run hard, sound great and keep up with TREQ ENGINEERING subwoofers, TREQ ENGINEERING TSi Integrated coaxials are built with only the best materials and build processes known to man. TSi Integrated speakers offer musicality and reliability that was unavailable until now. With best in class performance and power handling that will make your amps cry, the new TSi Integrated speakers will astonish you with precision and smoothness. New proprietary grills to provide protection from physical damage, and add a style to your install that can only be found in a product from TREQ ENGINEERING.

- 25mm Titanium dome tweeter with Neodymium magnet 8 times stronger than conventional magnets
- Mica-impregnated Polypropylene cone mid-bass drivers
- Resin-impregnated poly-cotton damper for great cone control
- Damper integrated tinsel leads for increased reliability and sound quality
- 4 ohm system impedance with high efficiency for use on high power head units and amplifiers
- Onboard 12db crossover with solid state tweeter protection
- Long copper wound voice coil for distortion free listening
- Powerful and durable strontium ferrite magnet with a protective magnet jacket
- 100% natural rubber surrounds for superior dampening
- Optimized to operate off-axis response in factory locations
- Custom grills for style and protection included

TECHNICAL INFORMATION

	TSi 5.2	TSi 6.5
Configuration	Integrated Coaxial	Integrated Coaxial
Midrange Diameter	5.25"	6.5"
Midrange Depth	2.37"	2.5"
Tweeter Diameter	1.85"	1.85"
Crossover	12dB HP	12dB HP
Max Power	200 watts	200 watts
RMS Power	100 watts	100 watts
Nom. Impedance	4 Ohms	4 Ohms
Voice Coil	37mm	37mm
Tweeter	25mm Ti	25mm Ti
Frequency Response	66Hz to 25Khz	59Hz to 25Khz
Sensitivity	90dB 1w/m	92dB 1w/m
Grills Included	yes	yes
